

## Font Table

Remember that, as with any font, the correct symbols will not display unless the font is installed - so if you use them in a document and email it to someone, they will not appear to the recipient unless they have also installed the font. So, try a PDF!

Enter the letter, number, or symbol in the left column of the chart below in order to insert the symbol to its right.

This font is intended as a thought-provoking exercise, an interesting object to share, and just good fun. Enjoy!
